

Dear FCC:

The New Jersey "Do Not Call List" which is stronger than the Federal legislation should be left as is. Do not preempt it. I have been extremely pleased with the "Do Not Call List". For years I have refused to buy, answer questions or make contributions when solicited to do so on the phone, even from organizations to whom I routinely donate. The Do Not Call List has removed the annoyance of answering repeated phone calls, saving me and retailers/organizations considerable time. As the proverb says: "If it ain't broke, don't fix it."

Thank you.

David Wilson
